The Alpro EB501 Electric Mini Bolt allows for remote access and exit control of most timber and metal doors. Suitable for sliding or swing, single and double action operations. It can be fitted in the frame or in the door and is also suitable for narrow profile joinery cabinets and showcases.

**Function**
Fail Open/Power to Lock

**Construction**
Stainless steel bolt (12mm diameter and throw) and strike plate provide secure locking.

**Electrical Features**
- Voltage: 12v DC±15%
- Activating current: 700mA
- Holding current: 100mA
- Continuously rated solenoid
- Fully protected against transient & reverse polarity

**Versatile Installation**
Designed to provide concealed high security locking on any single or double action, hinged or sliding door in timber or metal for vertical or horizontal mounting. Also suitable for cabinets and showcases.

**Monitoring**
Door position switch.

**Auto Relock Function**
Can be set for 0, 3, 6 or 9 seconds
