

Read all instructions before starting installation

PACK CONTENTS

GENERAL INSTALLATION INSTRUCTIONS

1 Ensure that

You have the following:

- Strike plate
- Electric bolt

2 All rebate strips and/or frame stops should be fitted before starting

3 A 2 amp Power Supply should be provided to ensure there is a Full 1 amp for the bolt. This should allow for a basic Access System and a back up battery to be connected to the same source.

WARNING: THE CONNECTION OF AN INCORRECT VOLTAGE MAY RESULT IN DAMAGE NOT COVERED BY THE PRODUCT WARRANTY.

4 The selection of appropriate power supply cable is very important to ensure lock receives sufficient power to operate.

5 Connect flying leads (+) Red (-) Black. Note - other leads for connection of LED via plug in lead ***NOT FOR POWER INPUT***

6 This product has been designed for use in weather protected areas and under normal circumstances does not require any maintenance. **DO NOT OIL OR LUBRICATE.**

7 This product must be used in conjunction with a quality floor spring or door closer to ensure positive realignment on closing.
