## Spigot Moured Circular Pull Handle

### Impressionist 05

The Impressionist 05 series of door handles are bold and modern in appearance, as well as being practical in everyday use.

Manufactured in

32mm diameter, the look and feel is strong and robust, yet aesthetically pleasing to the eye and designed for aluminium, timber and glass door applications.

Available from stock in satin anodised aluminium (SAA), stainless steel (SSS) and polished stainless steel (PSS).

The Impressionist handles are also available in coated finishes upon request.

Additional lead times should be allowed for these items and may be subject to a surcharge.

- Back to back kits come with F19, F20 and F21 fixings.
- Bolt-thru kits come with F26 and F34 fixings.
- Stainless steel and polished stainless steel handles are manufactured from 316 grade stainless steel.
