Modular Push Pad

Strand Push Pad Range

- The push pad emergency exit range comprises of modular components together with a push pad.
- The range offers a large degree of flexibility and can provide 1, 2 and 3 point latches (with horizontal or side entry Pullman latches) and 2 or 3 point bolts
- (with vertical pullman latches).
- Suitable for offices and buildings where people are familiar with the exits and hardware therefore a panic situation is unlikely to develop.
- Standard devices suitable for doors up to 2585mm high, for larger doors extra-long kits are available to suit doors up to 3150mm high.

Technical Drawings

Technical drawings applicable to 83PH3520, 83PH3560320 and 83PH3580320

Application

- Supplied with striker plates for timber doors as standard.
- Strikers also available for PVC-U, Aluminium and Steel doors (Please specify when ordering).

Microswitch

- The modular cross bar range can be provided with a microswitch contained in either the operating mechanism or idler.
- If required please specify at the time of ordering stating the microswitch location (Additional cost).
