

Door Loops

Door Loops offer a protective means of running wires from the frame to door installed with electrical devices, such as electric locks and exit devices.

These door loops prevent foreign objects from damaging the wires and also produce aesthetically pleasing appearance.

All models have a metal loop for better protection, and all have an internal diameter of 7cm which is sufficient to handle the most common cables used in door locking/control.

Features

- Cable/power management
- Easy to install
- 7cm internal diameter
- Aluminium end caps
- Economical and vandal resistant

ALP0250-A Specification

Surface mounted
Steel finish
Aluminium end caps
7cm internal diameter
Armoured – protects cables
Overall length 50cm
Loop length 37cm

ALP0250-S Specification

Surface Mounted
Steel finish
Aluminium end caps
7cm internal diameter
Overall length 50cm
Loop length 37cm

ALP0250-A
Surface Door Loop Armoured

ALP0250-S
Surface Door Loop Spring

| Code | Description |
|-----------|----------------------------|
| ALP0250-A | Surface door loop Armoured |
| ALP0250-S | Surface door loop Spring |
